Press the buttons on the left or right to control the room lighting and the microphone audio, or press the large power button to begin using the projector.
1. Choose a video and audio projection source by pressing one of the source buttons on the top row.
2. You can turn the projector on and off, or temporarily display only a blank screen, by using the “On”, “Off”, and “Mute” buttons on the left side.
3. Adjust your computer audio volume with the “Mute” and arrow buttons on the right side.
4. When you are finished, press the red “System Off” button located at the bottom-right of the screen.
