### Community Advisor:
An undergraduate student who has been selected to return to campus early to move new students into their residence halls, facilitate small group meetings with new students, and be available to answer personal questions and concerns. After NSO, your Community Advisor becomes your Peer Advisor through the Insight Program.

### Resident Advisor:
An undergraduate student who lives in the residence halls and helps students adjust to campus life. RAs help develop the residence hall community and assist students in dealing with both personal and academic issues.

### Faculty Advisor:
A member of the faculty who is there to assist you in adjusting to college and to give you advice and guidance concerning your academic requirements.

Throughout NSO they’ll be on hand to assist you. They’re knowledgeable about WPI services, programs, and policies. If you have a question or concern, just talk to one of them. This year’s orientation and residence life staff is composed of a cross-section of majors and class years. All academic departments are represented by the Faculty Advisors. All the CAs and RAs are involved in at least one other student activity, with the majority participating in a club, varsity sport or Greek life. New students are encouraged to seek out the help of any CA or RA during the months ahead.
