Tips for Investigators…

- If your proposal is being submitted to a federal sponsor and/or it is research, please submit to ORA for review at least 5 days prior to the submission deadline; Submit non-federal, non-research proposals to Corporate & Foundation Relations (CFR). If unsure, please contact ORA (5359, residm@wpi.edu) or CFR (6093, corporate-relations@wpi.edu).

- All requests for no-cost extensions on awards processed through ORA should be made through ORA - for federal awards, ORA can unilaterally approve many initial no-cost extension requests for up to one year with a valid programmatic justification of need. Please contact ORA at least 45 days prior to the current expiration of your award.

Distribution Base:
(a) 52.2% of Modified Total Direct Cost (MTDC) for all budgets beginning July 1, 2005 or after - The MTDC base consists of all salaries and wages, fringe benefits, materials and supplies, services, travel, and subgrants and subcontracts up to the first $25,000 each (regardless of the period covered by the subgrant or subcontract). To calculate the MTDC base, Total Direct Costs (TDC) must be reduced by any budgeted amounts for equipment, capital expenditures, tuition remission, rental of off-site facilities, scholarships and fellowships, and the portion of each sub-award in excess of $25,000.

(b) Salaries and wages of faculty and staff. Rate does not apply to student employees, research or teaching assistants.

Date of Current Office of Naval Research Rate Agreement: 11/13/07

More Tips for Investigators

• In general, it’s recommended that investigators make at least one initial contact with a new potential sponsor by email, phone, letter of inquiry, or in person before submitting a proposal. This contact may be helpful in building relationships, learning more about a sponsor’s current goals and mission, and learning new areas of research and/or related ideas.

• When contacting sponsors, limit the discussion to technical matters and contact ORA for assistance with proposal submission specifics, budgets, cost sharing, and other administrative topics.

• Proposals involving subawards to another organization require a letter of intent, scope of work, budget, budget justification, and copy of the organization’s indirect cost rate agreement to document their commitment to the project.

• Did you know…?
  - Travel to Canada is not considered foreign travel, but traveling on Air Canada is considered use of a foreign air carrier
  - Meals for you taken while at an approved conference on official business are allowable, but buying dinner for a colleague is not
  - Federal award funds normally may not be rebudgeted from any student support category without prior approval of the sponsor
  - All cost sharing, regardless of source, must be approved by the University prior to submitting a proposal
  - The University may not charge a lesser amount for a like expense to a non-federal sponsor than it does to the federal government
  - Effort devoted to sponsored programs is not about the number of hours but, rather, the percentage of WPI-compensated time spent on each activity (i.e., there’s no such thing as a 40-hour week)

• Above all else when an award is accepted by WPI on your behalf, be certain to read the terms and conditions to understand what requirements there are (e.g., programmatic reporting, types of allowable expenses, and rebudgeting) and contact ORA with any questions.
