As a part of WPI's 2010 Earth Day celebration, the President's Task Force on Sustainability and the Environmental Studies Program invite you to participate in a sustainability-themed project poster competition.

**Call for Participation**

We invite IQP, MQP, and GPS posters from the current academic year that fall into one of two categories:

- Technological responses to a problem associated with greening or sustainability
- Interdisciplinary projects that focus on socio-technical dimensions of social or environmental sustainability.

A panel of judges will review the posters; the best poster from each category will be awarded a prize of $250. $500!

Send the title of your project, a 250-word project abstract, and your name and contact information (as well as that of your team, if appropriate). You must submit this information to Susan Wenc (sjwenc@wpi.edu) by April 1, 2010.

If you have questions about the competition, please contact Liz Tomaszewski (ltomasz@wpi.edu) or Rob Krueger (krueger@wpi.edu).
